

1675KG LOAD-RATED 4X4 WHEELS

The greater strength and shock resistance of the Australian-owned and designed LOADED wheels provides peace of mind for GVM upgrades, towing, offroad adventure and tradies.

- **Stronger, more shock resistant** - Flow form technology increases the tensile strength for higher load capacity and greater shock resistance
- **Passed rigorous international wheel testing standards** for cornering fatigue (bending), impact, and radial load tests
- **Large OE brake caliper clearance**
e.g. Y62, 300 Series
- **Lifetime Structural Warranty**

Australian-owned,
designed and distributed
by Neta Tires & Wheels

With one of the highest load ratings in the Australian market, LOADED will give you peace of mind with MAX LOAD 1675KG stamped on every wheel.

STOCKTON 1675

Named after **Stockton Beach** at the southern end of Newcastle Bight. With sand dunes that are over 30m high, Stockton is a playground for four-wheel drivers.

Rim	Width	PCD	Offset	Load Kg	Finishes
17	8.5	6/139.7	5P	1675	   
17	8.5	5/120	18P	1675	  
17	8.5	6/114.3	18P	1675
